The PJSB regrets that in the manuscript entitled “Comparative Pollen Viability and Pollen Tube Growth of Two Endemic Philippine *Etilingera* (Zingiberaceae, Alpinioideae)” Figure 1 and 2 has been published incorrectly. Figure 1 and Figure 2 should be as follows:

**Figure 1:** *Etilingera dalican* Floral Dissection: inflorescence (inf), sterile bract (sb), fertile bract (fb), flower (fl), bracteole (bt), calyx (cx), corolla lobes (cl), epigynous gland (eg), style (st), stigma (s), labellum (lm) and anther sacs (as).
